

# **SUMMER SHOWCASE 2026**

**28–29 APRIL 2026**

**STUDENT GUIDE V1**

Where will you spend Summer 2026?  
A curated guide to programmes across India for  
high school students.

Copyright © 2026 College Access Program,  
Boost India Private Limited

## FOREWORD

Young learners today are asked to make high-stakes decisions early regarding disciplines, universities, and careers, often before they have had the chance to experience any of it first hand. Academic excellence alone does not answer those questions. Exposure does.

That is what summer programmes offer. Not just a way to spend a break, but a chance to test interests against reality, to discover what holds attention and what does not, and to return to the school year with sharper questions than the ones you started with.

At the College Access Program, we have watched this happen over the years. A student who spends two weeks inside a research lab, a design studio, or a policy classroom comes back changed. Not always certain of their path, but clearer about how to think about it. That clarity is what we want every student to have.

This guide brings together a selection of India's most thoughtful summer programmes and the institutions running them. It is a companion to the online summer sessions you may have attended, and a starting point for the conversations that should follow at home and with your counsellor. Use it to explore possibilities you had not considered. Use it to ask better questions about what comes next.

We hope this, along with other College Access Program resources, helps you approach your future with intention.

Good Luck!

**Ambikaa Ma'am**

College Access Program

## NOMINATE A STUDENT

We invite schools to nominate 2 student ambassadors from Class 11 or 12 to represent your school as part of the CAP Ambassador program. These are students who care—not just about their own college journey, but about making sure their peers feel seen, supported, and informed. They'll work alongside your school counselor and the CAP team to bring clarity, energy, and heart to the college guidance process.

A CAP Ambassador is someone who shows initiative, cares about helping others, and brings a sense of leadership, reliability, and curiosity. Ambassadors will commit around 15–20 hours per academic year, including joining monthly updates with the CAP team, gathering student questions and session requests, supporting counselors during university fairs or outreach events, and helping build awareness around college-related opportunities.

By nominating a CAP Ambassador, you're giving a motivated student a platform to lead, grow, and make a real difference. And for your school, it means stronger peer engagement, better student feedback loops, and a deeper connection to CAP. All nominated ambassadors will receive a certificate of contribution at the end of the year.

# Multidisciplinary Summer School and Robotics Summer School

BY SHIV NADAR INSTITUTION OF EMINENCE

**SHIV NADAR**  
INSTITUTION OF EMINENCE DEEMED TO BE  
UNIVERSITY  
DELHI NCR

	<b>LOCATION</b>	Delhi NCR
	<b>ELIGIBILITY</b>	Grade 8, Grade 9, Grade 10, Grade 11, Grade 12
	<b>COST OF PROGRAM</b>	₹35,000+GST
	<b>DURATION</b>	1st June to 6th June
	<b>MODE OF DELIVERY</b>	Residential (accommodation included)
	<b>DEADLINE</b>	30th April

## ★ KEY HIGHLIGHTS

- The YTF Multidisciplinary Summer School at Shiv Nadar University offers a unique blend of academic exploration and experiential learning, designed to expose students to diverse fields including technology, business, humanities, and innovation. Through expert-led sessions, interactive workshops, and design thinking activities, participants develop critical thinking and problem-solving skills while gaining real-world perspectives. The program also emphasizes leadership, communication, and collaboration through group projects and presentations. Set within an immersive university environment, students experience campus life, engage with peers from varied backgrounds, and benefit from mentorship by faculty and industry professionals, making it a holistic and enriching learning journey.
- The YTF Robotics Summer School is a hands-on, technology-driven program that introduces students to the fundamentals of robotics, coding, and automation. Designed to foster innovation and technical curiosity, the program combines practical lab sessions with real-world applications, enabling students to build, experiment, and solve problems creatively. Guided by experienced mentors, participants work on projects that enhance their analytical thinking, teamwork, and technical skills. Alongside rigorous learning, the program also includes collaborative activities, presentations, and opportunities to showcase ideas, all within the vibrant campus setting of Shiv Nadar University, offering a perfect balance of learning and experience.

# Innovation School

BY MAKER'S ASYLUM

	<b>LOCATION</b>	For 2027 - Maker's Asylum, Goa   Cornell Tech New York   IAAC Barcelona
	<b>ELIGIBILITY</b>	Grade 8, Grade 9, Grade 10, Grade 11, Grade 12
	<b>COST OF PROGRAM</b>	₹2,00,000 + taxes (merit & skill based scholarships available)
	<b>DURATION</b>	50 Hours (Online) + 7 days offline in Goa
	<b>MODE OF DELIVERY</b>	Residential (accommodation included)
	<b>DEADLINE</b>	June 30, 2026

## ★ KEY HIGHLIGHTS

1. Learn by Building (Not Just Listening) At Maker's Asylum, you don't sit through lectures—you make things. Think: prototypes, products, experiments, and ideas that actually come to life.
2. Work on Real-World Problems You'll tackle challenges linked to things that matter—like climate, sustainability, health, and future tech (inspired by the United Nations Sustainable Development Goals). This isn't hypothetical—you're solving real problems.
3. From Idea → Prototype → Product You won't just "have ideas"—you'll learn how to: Turn ideas into working prototypes Test and improve them Even think about turning them into startups or real ventures
4. Hands-On Skills Across Tech & Design You get exposure to: Electronics & hardware Design & digital tools Fabrication (yes, actually building stuff) Creative problem-solving
5. Mentors Who Actually Build Things You'll learn from makers, designers, entrepreneurs—not just teachers. These are people who've built products, startups, and real-world solutions.
6. A Global Community You'll meet and collaborate with students from different countries. Many alumni go on to launch projects, startups, or pursue unconventional careers.
7. Goa Residency Experience The program includes an immersive experience in Goa (Winter 2026) & New York/Barcelona (Summer 2027)— Think: building, collaborating, and living the maker life at a creative campus.
8. Portfolio That Actually Stands Out By the end, you won't just have grades—you'll have: Real projects A strong portfolio Proof of what you can do

# International Internship Program

BY YOUVAH STUDIO PVT. LTD.

	<b>LOCATION</b>	Malaysia
	<b>ELIGIBILITY</b>	Grade 9, Grade 10, Grade 11, Grade 12
	<b>COST OF PROGRAM</b>	₹2,12,400
	<b>DURATION</b>	15 Days (5 Days Online, 10 Days offline)
	<b>MODE OF DELIVERY</b>	Residential (accommodation included)
	<b>DEADLINE</b>	10th May 2026

## ★ KEY HIGHLIGHTS

- This 15-day international internship blends online learning with an immersive on-ground experience in Malaysia, giving students real exposure to global industries through hands-on work across AI, finance, marketing, and operations. From pre-departure sessions on Gen AI, corporate finance, and professional etiquette to real-time departmental rotations with industry mentors, the program is designed to feel less like a classroom and more like stepping into an actual career. With a highly selective cohort, boardroom-style final presentations, and globally recognised certifications, it offers a rare mix of learning, travel, and real-world execution—wrapped into one sharp, career-defining experience.

## READY TO TAKE THE NEXT STEP?

The Summer Guide helps discover India's select summer school programs curated for high school students. Whether you're looking to build new-age skills, explore college campuses, or get a taste of university life, this guide will help you make confident, informed choices this summer.

### Revisit your top 2–3 programs

Which ones match your goals, interests, or future major?

---

### Check application deadlines

Spots fill up fast — don't wait till the last minute.

---

### Talk to your school counselor

They can guide you on essays, recommendation letters, and how to make your application stand out.

---

### Have more questions?

Reach out directly to the universities — or drop your query at [dpssccareerguidance@gmail.com](mailto:dpssccareerguidance@gmail.com)
